

April 24, 2007

To whom it may concern;

This letter is being written to voice my support of the Mobile Lending program that has recently been cut outside of Vancouver.

It was with great disappointment that we at the Queensborough Community Centre heard this news. The program had been well received, and was growing steadily. Mobile Lending gave our young families in the community an opportunity to access a resource that was both unique, and of course, educational. For many families this was an opportunity that was not only gratefully received, but also necessary.

This news was received at a time when we anticipate unprecedented growth in the community. We are currently waiting for the occupancy of 1000 new homes in the area. It is believed that many of these homes will be lived in by young families. It is with great sadness that as the community prepares for the rising tide of children to come, we lose this most valuable program due to budget cuts.

Our children are our investment for tomorrow. The Mobile Lending program went a long way to ensure the positive dividends we hope for in children.

If I may answer any questions, or provide you with any further feedback, I would be more than happy to do so.

Regards,

Patricia Barlow
